

UKS2 Learning Log

Non-screen activities for you to do at home.

Thinking time...

We've had lots of time to think and reflect these past few weeks. Use the image above as an example to draw what's in your mind.

VE DAY - Friday 8th May

Celebrate VE day by playing games of the past like Hopscotch or by baking a war time recipe (Try Cheese Swirls!) You could even create paper aeroplanes in memory of the spitfire or have a family tea party in celebration of this historic moment!

Quiz!

Create a quiz to test your classmates with when we return to school. You could include questions about topics we've already learnt and add in some general knowledge questions too.

Get writing...

Look closely at this image. Can you use it to inspire you to write a story of your own?

The image is titled, The Invasion.

We know how much you love writing diary entries...

So why not begin to keep a daily account of what you spend your days doing during this period, which will be forever remembered in history.

Take some time...

To write a prayer for those who you think would appreciate your kind words and thoughts during this time.

An angle hunt

In Maths we've learnt about different angles, go on a hunt around your home or even during your time outside to find different angles. Take a picture of each one and label them.

Collective Worship

Plan a collective worship about caring for our common home (Laudato Si). Tell your family all about Pope Francis' important message.

Invent your own Maths game...

Have a go at creating your own Maths game. Maybe use the idea of a board game you already know and makes it mathematical e.g. Mathopoly!

Get creative!

Missing school and being in your classroom? Recycle materials and make a 3D model of your classroom, complete with your teacher and your friends.

Getting a bit bored of Joe Wicks?

Don't give up! Just make things a little different. Have a go at using the exercises you might have seen him do and create a 20 minute exercise routine for you and your family to enjoy.

Enjoying Reading?

Pick your favourite book to read, or even the one that's currently capturing your imagination and be inspired to create a themed bookmark. Add your favourite quotes from the book and think carefully about the illustrations.

Sharing Recipes

What's been your favourite meal since we've had to stay at home? Ask if you can help to make it next time and write down the recipe to share with others!

Escape room!

Can you create your own escape room challenges for your family to try to solve? Use your maths knowledge to create tricky problems, your words to create riddles and your facts to see who can escape the room!

Our next topic is...

Vikings!

What can you find out about the Vikings in preparation!

Month of Mary

May is the month of Mary, so you could commemorate this by creating your own design of a stained glass window featuring Mary.

PenPals!

We're all missing our friends at the moment. Why not write them a letter? Remember to ask questions so that they can write a reply!
