**Dear families,**

As I write to you today we sadly have a number of bubbles affected by positive Covid cases. I would be asking myself as a parent how so many bubbles have been closed?

I write to assure you that each bubble has been affected by someone within that bubble and no bubbles have crossed and no siblings have passed it on.

In school the bubbles do not come into contact with each other at all, they do not even share the same playground at the same time.

Most of the cases have been traced by to events and activities outside school. As the world opens up again, we have unfortunately felt the brunt of this.

Public Health Bury have confirmed similar patterns in schools across the borough.

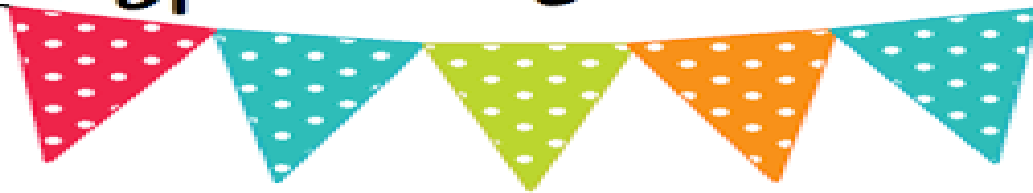

I urge any child who is in a closed bubble to have PCR test in line with the advice given to try to stop any further spread and that we continue to work together.

I thank all the children and parents who are working at home for their resilience and positive attitude shown.

**We send our thoughts and prayers to any of our community who are poorly at this time and wish them a speedy recovery.**
